OBJECTIVE

Aspiring software developer and B.Tech Computer Science student with a solid foundation in coding, software development, and web development. Adept at learning new technologies quickly and applying problem-solving skills to build efficient, user-friendly solutions. Seeking opportunities to collaborate with dynamic teams, gain practical experience, and contribute to innovative and impactful projects in the tech industry.

EDUCATION

Sagar Institute of Science and Technology Bhopal, India

2023 –2027

Bachelors of Technology in Computer Science and Engineering

CGPA- 6.64

Gayatri Vidhya Mandir Higher Secondary School

2022–2023

Higher Secondary Education

Percentage: 68

Gayatri Vidhya Mandir Higher Secondary School

2020–2021

Secondary Education

Percentage: 70

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML5, CSS3**Frontend:** React.js, Tailwind CSS, Bootstrap, Responsive Web Design**Backend:** Node.js, Express.js, REST APIs**Database:** MongoDB, MySQL**Tools:** Git, GitHub, Postman, Chrome Developer Tools, MySQL Workbench, Figma**Platforms:** Visual Studio Code, Eclipse, IntelliJ IDEA**Core Concepts:** Data Structures & Algorithms (Java), Object-Oriented Programming (OOP)

SOFT SKILLS

Problem Solving, Adaptability, Time Management, Initiative & Ownership, Excellent communication, Consistency & Reliability.

RELEVANT COURSEWORK

Learning Generative AI

COMMUNITY INVOLVEMENT & LEADERSHIP

Coding Lead

- Guided team strategy and implementation in multiple AI and web-based hackathons, leading end-to-end development of innovative prototypes.
- Oversaw backend architecture, deployment pipelines, and integration of APIs to ensure seamless functionality during project demos.

PROJECTS

Chronos AI – Health Assistant

- Developed an AI-powered healthcare assistant delivering preliminary symptom analysis and personalized health guidance.
- Integrated Generative AI to interpret and respond to health-related queries in natural language.

AI Smart Assistant for Education

- Built an AI-powered educational assistant supporting doubt-solving and personalized learning for students.
- Implemented intelligent chatbot functionality using Generative AI to strengthen problem-solving support.
- Designed responsive dashboards and interactive React.js user interfaces for improved usability.

EdTech Learning Platform – Live Project:

- Developed a full-featured EdTech platform during a Full Stack Development Internship, focused on frontend development.
- Built responsive, component-based user interfaces with React.js and modern JavaScript for cross-device compatibility.
- Implemented authentication, course management features, and API integration to support core platform functionality.
